Product description

Mont-Saint-Michel has the particularity of being erected on a rocky islet, surrounded by a magnificent bay, the scene of the highest tides in continental Europe. The Mount and its bay are listed as UNESCO World Heritage Sites. Between Normandy and Brittany, this grandiose site, located 3.5 hours from Paris, is one of the most visited sites in France.

Picture painted on a cloudy day. I was charmed by the many nuances of gray ... Beautiful. This place exudes extraordinary energy and beauty. No wonder it attracts so many tourists ... every day. I come back there with great pleasure ... knowing that each time I discover them anew, in a different light, in different colors ...
